Fuji Die is the leading company in Japan in the field of cemented carbide wear-resistant tools. Currently, we are expanding through overseas subsidiaries into Thailand, Indonesia, China, Malaysia, and India. Using our high dimensional materials and machining technology cultivated over many years, we provide high-precision, highly-trustworthy products in line with client requirements.

Specialized Products, Technologies and Services

The Fuji Die Group works primarily with cemented carbide products. Our tools and dies primarily are used in the steel, metals, automobiles, electronics, and chemicals industries. We provide the following product families.

- Drawing Dies & Mandrels
- Rolls
- Forging Dies
- Can Tooling
- Powder Compacting Molds
- Parts for Kneading/Extruding Machines
- Stamping/Forming/Bending Dies
- Molds for Glass Lens Parts
- Carbide Blanks
- Copper Tungsten Electrodes for EDM

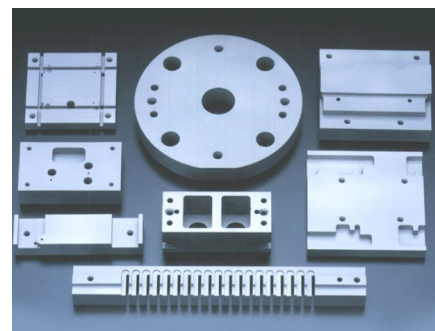

We have been engaged in the integrated production of these cemented carbide products, from provision of the raw metal powder to product design, sintering, casting, and product inspection at ultraprecise levels.
